Our blueprint
lies in advanced
technologies and
innovative processes
that enable our
customers to achieve
optimal fuel efficiency.

OVERVIEW

About Us.

Delasol is a dynamic, innovative Logistics and Energy Company, with a strategic specialised fleet, providing solutions throughout SADC countries to a diverse range of customers.

We are independent resellers of bulk petroleum products such as Diesel 50ppm, Petrol 93, and 95. Our blueprint lies in advanced technologies and innovative processes that enable our customers to achieve optimal fuel efficiency.

Through this focus, we enhance quality fuel supply to a commercial and retail clientele, fuel delivery, and fuel management solutions.

Business Outlook.

At DelaSol the element of human connection is at the heart of our business growth and outlook; it's what makes us unique and tick different.

Vision

Our vision is to become a preferred and reliable logistics and bulk fuel supplier with a strong foothold within the country, and its exterior borders. We endeavor to transport goods timely, safely, and cost-effectively.

Mission

Our vision is to become a preferred and reliable logistics and bulk fuel supplier with a strong foothold within the country, and its exterior borders. We endeavor to transport goods timely, safely, and cost-effectively.

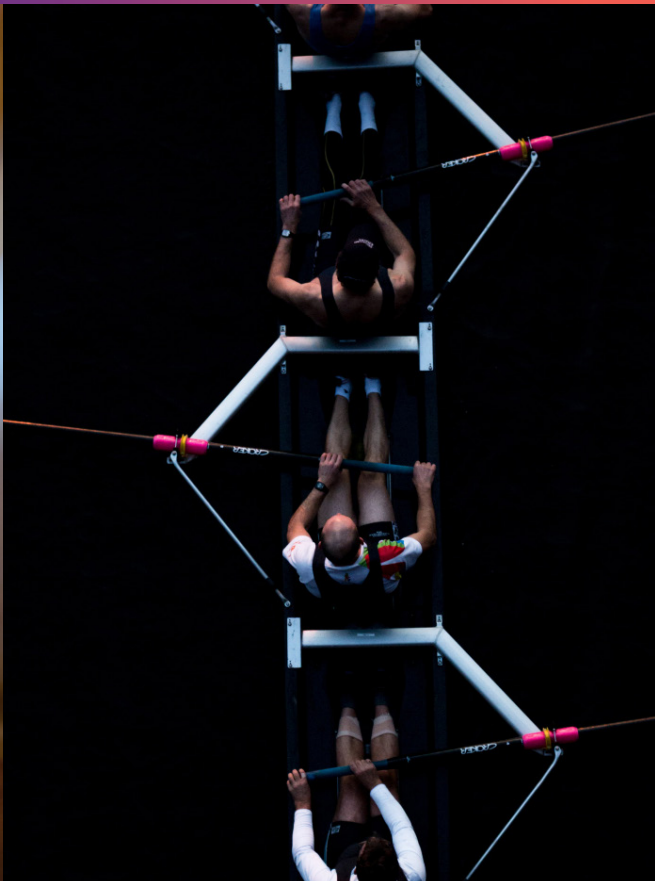

Integrity

Respect

Innovation

Teamwork

Service Division.

We offer a comprehensive and unmatched service that encompasses but is not limited to the following aspects.

Petroleum

Wholesale

Bulk petroleum products supplied and delivered straight to your premises.

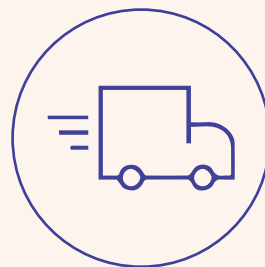

Delasol is an independent reseller with supply capabilities across South Africa, including cross border supply agreements with multiple oil companies.

Our Commercial Business line supplies medium to large-scale clients with motor and industrial fuels. We have cultivated a commercial customer base over the years and intend to become the most preferred commercial supplier of fuel in South Africa.

We supply a cross-section of key commercial and industrial establishments, namely, Power Generating Companies, Manufacturing Firms, Construction Companies, Transport Companies, retailers, and Major Hospitality industry players among a host of other companies.

Products supplied

- Diesel
- Petrol 95

Logistics

Globally connected

Modern, competitively-priced with transportation services.

Our vision is to become a preferred and reliable logistics and bulk fuel supplier with a strong foothold within in South Africa and its neighboring countries.

Logistics is the process of planning and executing the efficient transportation and storage of goods from the point of origin to the point of consumption. We transport various products throughout the SADC region. Our current focus markets include

- South Africa
- Mozambique
- Zimbabwe

All trucks used by Delasol are approved by the Safety Regulatory Board in Africa ensuring safe delivery and minimal environmental impact. To further boost time-to-market, mitigate risk and improve customer service, we partner with our clients by integrating their logistics functions across their end-to-end supply chain.

Infrastructure

To optimize operations

We create on-site petroleum depots and storage solutions for clients, maximising their operations

Fuel Depot Development

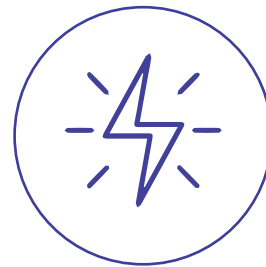

Delasol can assist its customers to build their fuel depots. We offer assistance to our clients from site selection to depot design, regulatory compliance, approval, and construction.

Retail

Building the future together

We supply retail clients and offer design and contemporary solutions

Power Solutions

Powering the nation

Helping customers grow by supplying tools such as generators and inverters for homeowners and retail clients.

We provide power solutions to our customers by supplying the highest quality inverters and generators coupled with safe installation and Bi-annual servicing of our infrastructure by our team.

OUR REACH

At Delasol, our passion for Logistics and Energy reaches no boundaries. As we grow, we continue to reach new heights and explore new industries across the SADC region.

Our main offices are in Gauteng; however we provide fuel and energy optimisation solutions for all our clients throughout South Africa and neighbouring countries. Delasol Energy Group addresses the needs of major oil and petrochemical industry players. We further address the power deficiencies currently in South Africa and supply clients with multiple options to address their needs
