

Delasol Pty Ltd
Company Profile

OVERVIEW

Our blueprint
lies in advanced
technologies and
innovative processes
that enable our
customers to achieve
optimal fuel efficiency.

About Us.

Delasol is a dynamic, innovative Logistics and Energy Company, with a strategic specialised fleet, providing solutions throughout SADC countries to a diverse range of customers.

We are independent resellers of bulk petroleum products such as Diesel 50ppm, Petrol 93, and 95. Our blueprint lies in advanced technologies and innovative processes that enable our customers to achieve optimal fuel efficiency.

Through this focus, we enhance quality fuel supply to a commercial and retail clientele, fuel delivery, and fuel management solutions.

Delasol also operating under Del Oil has since established two subsidiary companies:

- Delasol Botswana Pty Ltd
- Delasol Truck Stop

Business Outlook.

At Del Oil, the element of human connection is at the heart of our business growth and outlook; it's what makes us unique and tick different.

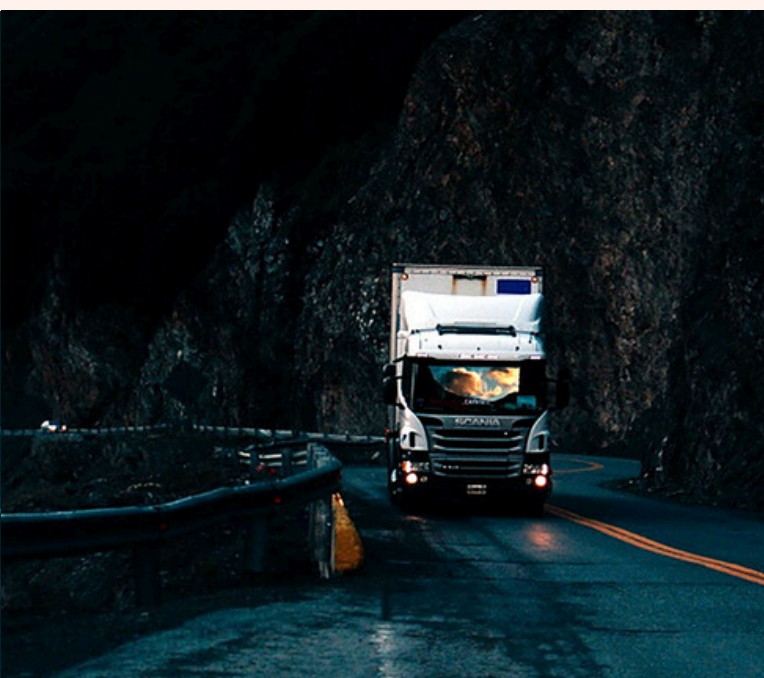

Vision

Our vision is to become a preferred and reliable logistics and bulk fuel supplier with a strong foothold within the country, and its exterior borders. We endeavor to transport goods timely, safely, and cost-effectively.

Mission

Our Mission is to bring quality products and logistic solutions to consumers across Africa and become a leading company in Africa for logistic solutions of various commodities.

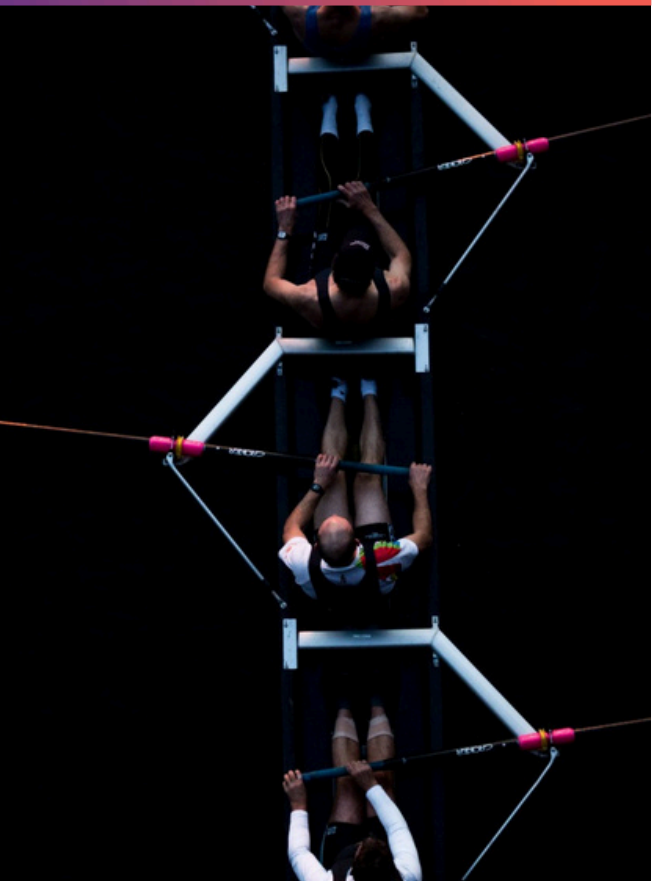

Integrity

Respect

Innovation

Teamwork

Service Division.

We offer a comprehensive and unmatched service that encompasses but is not limited to the following aspects.

Petroleum

Wholesale

Bulk petroleum products supplied and delivered straight to your premises.

Del Oil is an independent reseller with supply capabilities across the SADC region, including cross-border supply agreements with multiple oil companies.

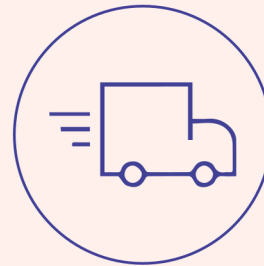

Our commercial business line supplies medium to large-scale clients with motor and industrial fuels. We have built a commercial customer base over the years and intend to become the preferred commercial fuel supplier.

Who we supply

- Power generation
- Manufacturing
- Construction
- Transport companies
- Industrial companies
- Fuel depots
- Mining
- Retailers
- Hospitality

Products supplied

- Diesel
- Petrol 95

Logistics

Globally connected

Modern, competitively-priced with transportation services.

Logistics is the process of planning and executing the efficient transportation and storage of goods from the point of origin to the point of consumption. We transport various products throughout the SADC region.

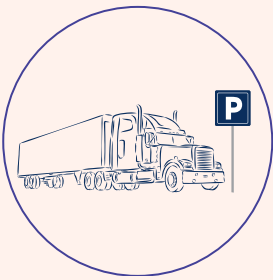

Our current focus markets include :

- South Africa
- Mozambique
- Zimbabwe
- Botswana
- Lesotho
- Zambia

All trucks used by Del Oil are approved by the Safety Regulatory Board in Africa ensuring safe delivery and minimal environmental impact.

To further boost time-to-market, mitigate risk and improve customer service, we partner with our clients by integrating their logistics functions across their end-to-end supply chain.

Delasol Truck Stop.

Truck Stop

Reliable

Premium fuel, secure rest and exceptional support for the transportation industry.

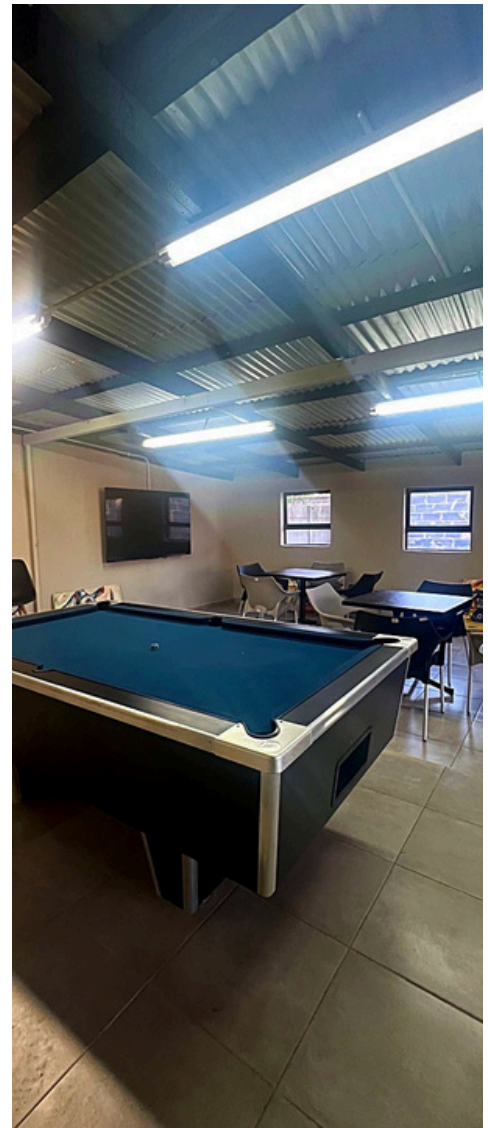

Delasol Truck Stop, a subsidiary of Delasol (Pty) Ltd, is a premier fuelling and rest facility serving truckers and logistics operators in South Africa.

Services offered

- Quality 50ppm diesel at competitive rates
- Secure, strategically located truck parking
- Industry-leading security
- World-class rest and driver amenities
- Freshly cooked meals

At Delasol Truck Stop, we believe truck drivers are the backbone of the economy. That is why we put safety, service and sustainability at the centre of everything we do.

As we grow, our goal is to expand into a network of trusted truck stop locations across South Africa and the wider SADC region, so that drivers and logistics companies can count on the same quality fuel, security and comfort wherever their routes take them.

Energy Solutions.

From the tank on your site to the generator that keeps the lights on, we build and power the infrastructure behind your operation.

Infrastructure

To optimise operations

We create on-site petroleum depots and storage solutions for clients, maximising their operations.

Fuel Depot Development

From site selection to construction

We help customers build their own fuel depots, from site selection to depot design, regulatory compliance, approval and construction.

Retail

Building the future together

We supply retail clients and offer contemporary design solutions.

Power Solutions

Powering the nation

Helping customers grow by supplying generators and inverters for homeowners and retail clients.

We provide power solutions by supplying the highest quality inverters and generators, backed by safe installation and bi-annual servicing carried out by our own team.

On-Site Fuel Solutions.

Beyond bulk supply, Del Oil delivers a complete on-site fuel solution: storage, monitoring, control and round-the-clock support. Your fuel is always available, fully accounted for, and never the reason for interruption in your operation stops.

On-Site Storage Tanks

Scaled to your consumption

- Tanks from 1,000 litres up to any volume your operation requires, fully scalable as demand grows.
- Fitted with pumps and meters for accurate, transparent dispensing.
- No upfront capital outlay on tank procurement, installation or equipment.
- Bulk deliveries cut transport costs, unplanned purchases and wastage.

Fuel Monitoring System

Real-time visibility

- Secure, web-based access to live tank levels from any location.
- Accurate litre readings, consumption patterns and automated alerts.
- Replenishment dispatched automatically once levels reach a pre-agreed threshold.
- Because Del Oil both monitors and supplies your fuel, your site does not run dry.

Control & Support.

Every litre tracked. Every hour supported.

Fuel Tagging System

Every litre accounted for

- A unique identifier for each authorised vehicle or operator.
- Every draw linked to an asset or person (who, when and how much).
- Irregular patterns flagged immediately, protecting against loss and theft.
- Digitally stored, audit-ready records for reconciliation and compliance.

24/7 Emergency Response

Zero operational downtime

- A team on standby around the clock, ready to mobilise an emergency delivery at any hour.
- Rapid technical assistance for pump, tank and dispensing-system faults.
- Cover against sudden consumption surges, system faults and supply disruptions.
- Less risk of production halts, equipment standstills and costly delays.

Add-Ons

Optional value-added components, available at additional cost.

Trained On-Site Attendant

A dedicated attendant overseeing daily dispensing, safety protocol adherence and accurate fuel records.

SARS Rebate Support

Qualified auditors handling documentation, usage tracking and record preparation for compliant rebate submissions.

Spill Kits

Compliant kits positioned at storage and dispensing points for immediate containment of any accidental discharge.

OUR REACH

At Delasol, our passion for logistics and energy reaches no boundaries. As we grow, we continue to reach new heights and explore new industries across the SADC region.

Our main offices are in Gauteng, South Africa; however, we provide fuel and energy optimisation solutions for clients throughout South Africa, Mozambique, Zimbabwe, Botswana, Lesotho and Zambia. Del Oil addresses the needs of major oil and petrochemical industry players. We supply our clients with multiple innovative and tailored options to address their needs.
